

Specification for Plastic Pipe Clips

HINGED PIPE CLIP

Material: High grade PP.

Application: The hinged pipe clip is designed to protect pipe work, reduce pipe vibration and maintain joist strength. It provides 360° pipe support and a secure fixing and retention. All sizes of the single hinged pipe clip can be connected together via the dovetail to allow for equal pipe spacing.

Colour: White, black, grey, red, blue, yellow, brown, other colours are also available.

Size: 10mm, 12mm, 15mm, 18mm, 22mm, 28mm

SPACER (STANDARD)

The standard spacer fits to the base of interlocking clips adding 13mm clearance from the fixing surface.

NAIL-ON CLIP

Material: High grade PP and nail.

Application: The product features a high quality mechanically plated hardened and tempered nail, suitable for all types of masonry.

Colour: White, black, grey, red, blue, other colours are also available.

Size: 7-8mm, 10-12mm, 15mm, 22mm, 28mm
